

SITE INTELLIGENCE

The Foundation for Operational Evolution.

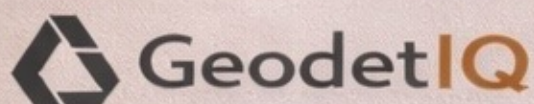

Before simulation comes precision.

Before optimization comes structure.

GeodetIQ Site Intelligence captures,
maps and structures your operational reality
into a digital-ready environment.

Scan. • Structure. • Prepare.

Operational clarity starts here.

A Comprehensive Approach to Operational Mapping

Scan

Capture your site with precise 3D laser scanning.

Map

Transform point clouds into accurate, editable 2D/3D layouts.

Model

Create a digital foundation for retrofits and future decisions.

Prepare your production site for the digital twin era.

- Validate as-built conditions
- Plan retrofits with real-world data
- Optimize layouts before installation
- Reduce onsite modifications
- Minimize downtime

Precision scanning for operational insights.
